**Subject:** Anacostia background for RA  
**Attachments:** Anacostia Leadership Council Paper 5\_14\_2019.docx

Hi, folks.

Cosmo received a quick briefing from SEMD and WD specific to the ROD in the Anacostia for an upcoming conversation with Tommy Wells. We also have an upcoming briefing for him specific to the trash TMDL issues/decisions as well as a discussion on the toxics TMDL.

Given that the Tommy Wells-prep conversation focused on the ROD, and we only have 30 minutes for the trash and toxics TMDLs coming up, I thought it might be useful to have a bit more background on the bigger picture of the Anacostia River sediment activities. The attached paper has been coordinated with SEMD.

Let me know if you have any questions.

Thanks,  
Cathy
